TS-ONE

Description The TS-ONE is Siser's most common heat press - this is a user-friendly machine, stable and solid, and opens both vertically and laterally in order to ensure very quick applications on any type of textile.

A digital display indicates the temperature of the higher plate, while the alarm reminds the user when the transfer is ready.

Optional Plates

- Plates for caps
- Plates for shoes (Options H+Achlle)
- Logo platens 15x15 cm
- 30x15 cm
- 38x10 cm

Technical Data

Power	2000 Watt
Voltage	220 Volt
Max Temperature	220° C
Max Pressure	300 gr/cm ²
Plates dimensions	38cm x 50cm

The TS-ONE machine, as it is equipped with electrical parts operating at a voltage between 50 V and 1000 V, is subject to the Low Voltage Directive 2006/95/CE (formerly 73/23/CEE) and the Electromagnetic Compatibility Directive 2004/108/CEE.

Since there are no motor-driven moving parts, as the movement of closure and opening of the plates is controlled by hand, the TS-ONE does not come within the field of application of the Machine Directive 2006/42/CE. Nevertheless, the design and construction of the TS-ONE has been made in compliance with the essential safety requisites foreseen by Directive 2006/42/CE.
