

SureColor F2200

The all-in-one DTG and DTFilm printer

EPSON®

Embrace the versatility of hybrid technology

SureColor F2200 is built to deliver exceptional DTG (Direct to Garment) and DTFilm (Direct to Film) prints for every type of business.

Fast, flexible, and highly functional, our latest addition to the SC-F series is the perfect all-in-one solution for any start-up or medium-volume business, offering reliability, efficiency, and cost savings across the board.

As a total solutions provider, each element of the SureColor F2200 has been designed and created by us. From the printhead to the ink itself, everything works in harmony to deliver the best possible performance – enabling you to execute high-quality t-shirts, sweaters, hoodies, bags, and other types of items printing with ease.

DTFilm

DTG

Pre/post process	Powder shaking and curing	Pre-treatment (dark garments only)
Fabric suitability	Various	Cotton/Cotton-mix
Hand feel	Raised	Smooth

Transparent lid and internal light allows you to view and check printing status

Compact, flat top design to reduce workspace and 4.3-inch touchscreen provides ease of use

The Epson MicroTFP Printhead, gives improved print quality with POL

Easy access print start button aids smoother workflows and uninterrupted print runs

Enjoy increased productivity and stunning results

Using the latest advancements in DTG and DTFilm technology, the SC-F2200 brings together the best of both worlds to help you capitalise on every opportunity.

Next-level performance

Epson MicroTFP Printhead increases productivity by up to 35% on light garments and 25% on dark garments*

Maintain high-quality production, with fewer passes, due to the 33% increased printhead bandwidth

Faster data processing reduces waiting time, further increasing productivity

Stunning image quality

New UltraChrome DG2 inks provide outstanding image quality and durability

Improved bleed between yellow and black inks

Part Overlap (POL) reduces banding and graininess at lower pass rates

600 DPI input resolution enables the production of fine lines and smaller details

Effortless usability

Innovative sensors detect garment surface, and automatically adjust the carriage to optimal position for stable quality reducing manual intervention

800ml ink pouches lower ink change frequency and total cost of ownership

User defined auto-cleaning reduces printer downtime even further

Easily switch between DTG and DTFilm in Garment Creator 2

Space saving design

Easy access print start button and large 4.3-inch touchscreen display

Transparent cover and interior light enable operator to check printing status

Small footprint allows for easy installation into smaller spaces and through narrow doors

Ink pouches reduce wastage (space and weight) by more than 70% in comparison to SC-F2100 cartridges

* When compared with the Epson SureColor F2100.

Introducing Garment Creator 2

Easily load designs, select presets and print jobs with our newly updated Garment Creator 2 software. With its intuitive user-friendly interface and seamless navigation, you can create presets for both DTG and DTFilm. This includes fine tuning colour management and quality, scaling and duplicating design to ensure consistently outstanding results throughout.

Garment Creator 2 also features faster data processing and supports 600dpi input resolution to improve the print quality of fine lines and small text, while the vivid colour mode allows SC-F2200 to produce a more vibrant colour output.

Technical specifications

Printhead		PrecisionCore MicroTFP Printhead		
Print speed (default)	Dark colour t-shirt (standard)	142 sec		
	Black colour t-shirt (use garment black)	86 sec		
	Light colour t-shirt (standard)	43 sec
